BACKGROUND

Since starting his own firm, Mr. Fitterman has worked as a subcontractor for HUD as a national technical assistance provider. He provides expertise, training, and problem solving to HUD grantees across the nation.

In addition to his work with HUD grantees, Mr. Fitterman has recently provided deal specific technical assistance to communities applying for funds from the state of California's Homekey program, a grant program for agencies to acquire hotels, motels, apartments, and other buildings to provide homes for people experiencing or at risk of homelessness.

Before starting his own firm, he was the Managing Director of Property Development for Ability Housing, a Florida-based nonprofit developer of affordable rental housing, with a focus on serving households experiencing homelessness.

His experience includes economic development and business lending. He wrote the underwriting guide for U.S. HUD's Section 108 Economic Development Loan Guarantee Program. He designed and was the lead underwriter for St. Louis County's \$24 million Economic Development Loan pool. He was the lead author of HUD's recently published CDBG-DR Policy Guide.
